

Add an entry below for each day the team meets

**October 22 2020**

- ONLY ADD TEAM MEMBERS WHO ARE ACTUALLY AT THE MEETING IN PERSON
- EACH MEMBER SHOULD ENTER THEIR OWN INFORMATION AFTER THEY SHARE VERBALLY TO THE TEAM

Erik Mortimer

- What's been done:
  - Create Sprint 2 documents with team and flesh out goals and descriptions of later tasks
- What will be done:
  - Continue to learn Kotlin via Udemy or Udacity course
  - Finish fleshing out goals and tasks for Sprint 2
- What's been hard:
  - Finding a new time for daily standups

Kevin Baker

- What's been done:
  - Assisted with Sprint 2 backlog and discussed changing fragments to activities
- What will be done:
  - Start editing the pantry fragment to something workable
- What's been hard:
  - Dealing with the issue of too many fragments with some of which that need to be activities

Andrew Sartor

- What's been done:
  - continued development of login system through Android / OAuth sign in
- What will be done:
  - Finishing up token auth
- What's been hard:
  - integrating token auth into existing system

Marlee Bryant

- What's been done:
  - Worked on sprint2 backlog and refactoring the project backlog
- What will be done:
  - Research on how to improve the search UI and algorithm
- What's been hard:
  - Time management

## Oct. 27 2020

- ONLY ADD TEAM MEMBERS WHO ARE ACTUALLY AT THE MEETING IN PERSON
- EACH MEMBER SHOULD ENTER THEIR OWN INFORMATION AFTER THEY SHARE VERBALLY TO THE TEAM

### Erik Mortimer

- What's been done:
  - Figured out the best plan of action to continue learning Kotlin. (getting course on Udemy)
- What will be done:
  - Go through Kotlin udemy course
  - Convert fragment menu bar into activities menu bar
  - Beginning to flesh out List section of the app
- What's been hard:
  - Team communication
  - Having everyone at the meetings at our scheduled time

### Kevin Baker

- What's been done:
  - Further the much needed knowledge of Kotlin programming and fragments/activities in Android Studio
- What will be done:
  - Finish tutorial on Kotlin
  - Start looking at the Python recipe script
- What's been hard:
  - Transferring Java snippets to Kotlin not fully working

### Andrew Sartor

- What's been done:
  - continued development of login system through Android / Oauth sign in
- What will be done:
  - Finishing up token auth
  - Start development on recipe view
- What's been hard:
  - integrating token auth into existing system
  - team communication

### Marlee Bryant

- What's been done:
  - Assignments for other classes
- What will be done:

- Research for list UI
- What's been hard:
  - Time management

### **Oct. 29 2020**

- ONLY ADD TEAM MEMBERS WHO ARE ACTUALLY AT THE MEETING IN PERSON
- EACH MEMBER SHOULD ENTER THEIR OWN INFORMATION AFTER THEY SHARE VERBALLY TO THE TEAM

#### Erik Mortimer

- What's been done:
  - Go through Kotlin udemy course
- What will be done:
  - Go through Kotlin udemy course
  - Convert fragment menu bar into activities menu bar
  - Beginning to flesh out List section of the app
- What's been hard:
  - Team communication
  - Having everyone at the meetings at our scheduled time

#### Kevin Baker

- What's been done:
  - Finished Kotlin tutorial and looked at android studio test case functionality
- What will be done
  - Finally finish the pantry fragment
- What's been hard:
  - Finalizing the pantry fragment which has been riddled with errors due to transfer from java to Kotlin snippets

#### Andrew Sartor

- What's been done:
  - continued development of login system through Android / Oauth sign in; again
- What will be done:
  - Finishing up token auth
  - Start development on recipe view
  - Database design for favorites support
- What's been hard:
  - integrating token auth into existing system
  - team communication
  - balancing schedule

Marlee Bryant

- What's been done:
  - Researching ListActivities to use for search UI
- What will be done:
  - Implementing a better UI for the search and working on improving results accuracy
- What's been hard:
  - Finding applicable documentation

### **Nov. 3 2020**

- ONLY ADD TEAM MEMBERS WHO ARE ACTUALLY AT THE MEETING IN PERSON
- EACH MEMBER SHOULD ENTER THEIR OWN INFORMATION AFTER THEY SHARE VERBALLY TO THE TEAM

Erik Mortimer

- What's been done:
  - Go through Kotlin udemy course
  - Converted fragment Favorites, Pantry, List, and More into individual activities
  -
- What will be done:
  - Push current changes
  - Continue fleshing out List activity functionality
- What's been hard:
  - Creating and understanding fragments and activities and when to use them in an Android application
  - Understand how test cases work within Kotlin
  -

Kevin Baker

- What's been done:
  - Finished pantry fragment basic functionality
  - Asked Prof. Gray for unit test specification
- What will be done:
  - Push changes to pantry and start theorizing test cases to implement
  - Start looking at test case options
- What's been hard:
  - Deciding how/what test cases to implement

Andrew Sartor

- What's been done:
  - Decided to move login authentication to firebase

- What will be done:
  - Finishing auth through firebase
  - Finish favorites functionality
- What's been hard:
  - transitioning to firebase
  - managing a split backend

Marlee Bryant

- What's been done:
  - Working on ListActivity UI
- What will be done:
  - Finishing Search UI, working on details UI, improving search algorithm for better results
- What's been hard:
  - Figuring out test cases

**Nov. 7 2020**

- ONLY ADD TEAM MEMBERS WHO ARE ACTUALLY AT THE MEETING IN PERSON
- EACH MEMBER SHOULD ENTER THEIR OWN INFORMATION AFTER THEY SHARE VERBALLY TO THE TEAM

Erik Mortimer

- What's been done:
  - Continue going through online Kotlin course learning to use NavController with fragments, actions and destinations
  - Work on implementing calendar and list of recipes for a week
- What will be done:
  - Move into single activity and multiple fragment type module throughout the MyChef app
- What's been hard:
  - Understanding the different app navigation modules with fragments and activities and when to use them in an Android application
  - Understand how test cases work within Kotlin

Kevin Baker

- What's been done:
  - Pushed pantry changes
  - Began work on test cases
- What will be done:
  - Have all test cases complete in time for the presentation

- What's been hard:
  - Deciding how/what test cases to implement

#### Andrew Sartor

- What's been done:
  - Finished login through google functionality
  - Began implementing search/RecyclerView
  - Fixing search functionality on backend
  - Added logout activity
- What will be done:
  - Finish implementing favorites implementation
  - Finish backend authentication for favorite identification
  - Fix search functionality
- What's been hard:
  - Coordinating team efforts

#### Marlee Bryant

- What's been done:
  - Working on sprint and favorites UI
- What will be done:
  - Add to favorites functionality
- What's been hard:
  - Implementing search in a RecyclerView
